

RINAT SHAIKHLISLAMOV

FRONTEND DEVELOPER (ANGULAR)

Portfolio: <https://yarche551.github.io/resume/>

PROFILE

A frontend developer focused on results and process. I'm confident working with tools and documentation. I have a fundamental knowledge of JS, specializing in Angular and TS. I quickly master tools and transform mockups into interfaces, landing pages, and SPA-applications.

- Angular
- Tailwind CSS
- Vite
- Webpack
- Bootstrap
- git
- HTML5 / CSS3

LANGUAGES

- English (Intermediate)
- Russian (Native)

PROJECTS

Project "Lumincoin finance"

- A single-page budget-planning app — income & expense tracking by category, transactions, and a dashboard with Chart.js charts. JWT auth; built with native JS, Webpack, and Bootstrap 5.
- Live: <https://lumincoinfinance-frontend.onrender.com>
- GitHub: https://github.com/Yarche551/lumincoinFinance_spa

Project "Freelance Studio"

- A single-page app for managing freelancers and orders — authentication (JWT), full CRUD, and a dashboard with an order calendar. Built with native JS, Webpack, and AdminLTE 3 / Bootstrap 4; works with a REST API.
- Live: <https://freelancestudio-spa-1.onrender.com/login>
- GitHub: https://github.com/Yarche551/freelanceStudio_spa

Project "Dostaffkin"

- Set up and configured an Angular + TypeScript project (CLI, module and routing structure).
- GitHub: <https://github.com/Yarche551/dostaffkin>
- Live: <https://yarche551.github.io/dostaffkin/>

Landing "Night Light" (pixel-perfect)

- A dark-mode landing page with detailed CSS animations and lighting effects, built with close attention to pixel-precise layout, jQuery animations.
- Live: <https://yarche551.github.io/nightlights/>
- GitHub: <https://github.com/Yarche551/nightlights>
